

## Spiral Conveyor Narrow Trak

The APOLLO Narrow Trak Spiral Conveyor is a new type of Spiral Conveyor added to the existing range of APOLLO Spiral Conveyors. The Narrow Trak is designed with the proven reliable APOLLO Spiral Conveyor philosophy being; rolling friction.

The new chain slat arrangement in combination with the smaller base structure makes the Narrow Trak a perfect solution to transport small single items.

### Designed to handle:

plants, pots, single cans and small crates.
